Experience

I've independently developed numerous websites to gain hands-on experience and enhance my skills, while also assisting my colleagues with their projects.At IT Unite, I am responsible for troubleshooting hardware and software issues, managing network infrastructure, and providing technical support to internal teams and external clients. Additionally, I contribute to the development and implementation of IT a

solutions to improve efficiency and productivity within the organization.

Mazandaran Cement Company _ IT Unit

2018- PRESENT, IRAN

Collaborated with designers and back-end developers to implement UI/UX designs and integrate with server-side APIs.

Implemented front-end functionality using React.js, optimizing performance and ensuring cross-browser compatibility.

Conducted code reviews and provided feedback to team members to maintain code quality and consistency.

Assisted in the development of user interfaces for web applications, following best practices in front-end development.

Worked closely with senior developers to learn new technologies and enhance technical skills.
